Dear Chairman Cole and Ranking Member DeLauro,

I am requesting funding for the Cedar Bluff Wastewater Infrastructure Reliability and Public Health Protection Project in Fiscal Year 2027, located at 3420 Spring Street Cedar Bluff, AL 35959. This funding request will rehabilitate and upgrade six critical wastewater lift stations to protect public health, prevent sanitary sewer overflows, and ensure reliable sewer service throughout the community. Several stations currently contain aging pumps, deteriorated piping, and outdated electrical and control systems that increase the risk of equipment failure and environmental contamination. This project is a good use of taxpayer funds because these improvements will strengthen system reliability and reduce emergency failures, and safeguard Cedar Bluff's residents, waterways, and environment by ensuring wastewater is safely and efficiently conveyed to treatment facilities.

The project has a federal nexus because the funding provided is consistent with purposes authorized in Title VI of the Clean Water Act, 33 U.S.C 1381 et seq.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in black ink that reads "Mike Rogers".
